Overview

• Firematics & Operations
• Code Analysis: 2014 NYC Fire Code Sections FC504.4 & FC512
• Common Non-Compliant Installations and Solutions
PLEASE HOLD ALL QUESTIONS UNTIL THE END

THANK YOU
Roof of the Fire Building

Nothing shall deter the member assigned the roof position from carrying out the assigned duties.
Roof Position Requirements

• A **perimeter search** shall include the sides, rear and shafts of the building.

• Transmitting **vital information** to the Incident Commander.
Roof ventilation is critical for search, rescue and extinguishment of the fire. Relieves the upper portions of the building of heat, smoke and gases, limiting horizontal spread.
Overview of FC504.4
Rooftop Access and Obstructions

- 2014 Fire Code effective as of March 30\textsuperscript{th}, 2014
- Buildings that are 100 feet or less in height and have a slope of 20 degrees or less
- Includes the rooftops of building setbacks
FC504.4.1 Access Openings

• Every 12 FEET of frontage width requires 6 FEET open
• There can be NO MORE than 12 FEET of obstructed rooftop area between distinct openings
• Pattern depends on building size
• Only calculated for an apparatus accessible exposure
FC504.4.3

- Perimeter access location shall be a min. of 6’ in each direction & connect to clear path
- Fence shall not obstruct access landing and shall provide access to clear path via gate.
- Gates
  - 3’ wide, inward swinging
  - May be secured by padlock or chain
  - Able to be cut by standard bolt cutter
Non-Compliant Fence
Measurements

• Measurements from inside face of parapet wall
• Raised/Decorative Parapets: Indicate height of all segments
Sloped Parapets: “usable” rooftop space begins where slope meets flat portion of roof
FC504.4.1(5)

Structures affixed to an exterior building wall below the roof line shall not obstruct fire apparatus aerial ladder access to the rooftop perimeter access locations. Including but not limited to:

- **Awnings**
- **Sun Control Devices**
- **Solar Panels**
- **Fire Escapes**
Scaffolding & Signage

- **FC504.4.1[6]**
  - Existing scaffolding modified to provide access onto rooftop
  - New scaffolding be designed to provide secure landings onto rooftop

- **FC504.4.2**
  - Rooftop access signs and markings
    TBD by Fire Department when required
Clear Path Summary

- **FC504.4.4**
  - Clear path is 6’ wide & 9’ tall
  - Traverses front to rear & side to side
  - Distinct clear path every 100 linear feet.

- **FC504.4.4[1]**
  - Clear path connects to access landings

- **FC504.4.4[2]**
  - Fire escape, bulkhead door, scuttles, skylights shall be accessible from clear path
  - 3’ wide access around scuttles & skylights on 3 sides

- **FC504.4.4[3]** see FC504.4.7

- **FC504.4.4[4]**
  - Fences crossing clear path shall provide gate(s)
FC504.4.6

• Required rooftop clearances
  – Roof door: 6’ clear radius from hinge
  – Fire Escape & Roof Ladders: 3’ clear radius from each side of the ladder or landing
Clearances
Clear Path Summary Continued

- **FC504.4.4[5], Multiple Roof Levels**
  - 1 story difference and less than 16’ difference (Ladders)
  - Exception: setback is less than 6’ (No ladders)
Irregular shaped buildings:
- “H” shaped buildings (additional paths)
FC504.4.5

Rooftop clear path protection
Consists of 42” height (from roof surface) railing, parapet or barrier
Provide for open shafts, building perimeter or unprotected elevation above rooftop

Exception:
Height differentials of 6 feet or less
Lack of Clear Path Protection
Obstructions
FC504.4.7 & FC504.4.8

- Conduits and Piping FC504.4.7
  - Labeled as required
  - Greater than 12” height or 24” width, non-combustible crossover

- Telecommunications Installations FC504.4.8
  - Transmitter labeling
  - Signage as required for antennas, powered equipment, and related equipment
Rooftop Gardens

- **FC504.4.9**
  - Shall not cause obstruction to required rooftop access, clear path, or rooftop door/fire escape clearances
  - Vegetation shall not exceed 12” in height

- **FC318.5 & Plumbing Code 429.1**
  - Hose connection to an approved water supply required for square footage exceeding 250 sq ft
Green Roof
FC504.4.10

• Rooftop solar installations shall be designed, installed, operated and maintained in accordance with FC512
Overview of FC512
Rooftop Solar Panel Installations
Summary of FC512

• Solar Panel on Flat Roofs shall comply with all requirements of FC504.4
  – Exception to the clear path requirement:
    Approved hinged mechanism for clear path obstructed by solar panels, NEEDS FD Certificate of Approval, TM-2 App. (FC 512.2[1])

  – Acceptable encroachments on the clear path for narrow buildings, 25 feet or less (FC 512.2[2])
    • Ex. Scuttles, skylights, vent pipes, and existing building features.
    • Solar panels cannot be the cause of the encroachment.
FC512 Continued

- Solar Panels on Pitched Roofs, greater than 20°
  - Provide 3 feet of clearance along BOTH sides of the ridgeline of each roof (FC 512.3.1 & FC 512.3.2)
Location of Panels & Markings (FC 512.4)

- Locate conduits along dips and valleys away from ridge line (peaked roofs)
- Solar panel equipment shall be labeled:
  “WARNING: PHOTOVOLTAIC POWER SOURCE”
  in white capital letters no less than 3/8” in height on a red background
Accordingly, pending code revision or promulgation of a rule, the Fire Department will interpret FC504.4 and FC512.3 in accordance with the following interim guidelines:

1. A one or two-family home with a shallow-pitched roof (a roof slope of not less than 2/12, or 9.5%) shall comply with FC512.3, not FC504.4.

2. A one or two family dwelling that is primarily a flat-roof building shall comply with FC504.4, even if a portion of the roof is shallow-pitched or has a pitch exceeding 20%. For example, a brownstone-type building shall comply with FC504.4, not FC512.3, notwithstanding it having a pitched roof element (such as a mansard) or a penthouse or bulkhead with a pitched roof.

A shallow-pitched or pitched portion of the building rooftop must be kept free of obstructions if it can be traversed to gain access onto, or across, the otherwise flat roof. Owners may request guidance from the Bureau of Fire Prevention as to the appropriate treatment of shallow-pitched or pitched portions of flat-roofed buildings.

3. This interim guideline shall not apply to shallow-pitched roofs on buildings other than one or two family dwellings (Occupancy Group R-3).
In summary, one or two family dwelling whose slope is 9.5 degrees or greater do not have to comply with the requirements FC504.4; these rooftops instead must comply with FC512.3. Specifically solar panels shall not be installed within 3 feet of both sides of any ridgeline.
Non-Compliant Solar Roof
What requires an application?

Non-compliance, whether existing or proposed

- New equipment on a rooftop including: Cell Sites, Solar/PV Arrays, HVAC, Fencing
- Vertical Enlargements (penthouses, bulkheads, new floors)
- Accessory/Incidental use of roof: deck, bar, greenhouse
- Green Roofs, Blue Roofs
To File An Application

- TM-5 Application
- $420 plan examination fee
- 11”x17” plans original seal & signature (3 sets)
- Narrative for scope of work
- Photographs of current conditions on rooftop

Submit at Window #8, 9 Metrotech Center, Brooklyn, NY 11201
NEW YORK CITY FIRE DEPARTMENT  
BUREAU OF FIRE PREVENTION  
9 METROTECH CENTER, BROOKLYN, NY 11201-3857

TM-5: APPLICATION FOR ROOFTOP ACCESS VARIANCE/PLAN REVIEW

- FDNY TM-5 must be typewritten, submitted with supporting documentation including a narrative (see item 8 below), signed and sealed 11"X17" plan set for review, and photographs of the existing/proposed conditions on the rooftop.
- Section 11 must be signed by the owner.
- Fee for Plan Examination: $420 made in money order or check, payable to NYC Fire Department.
- Submit completed application in person at Window #8 on the first floor of FDNY Headquarters, 9 METROTECH CENTER, BROOKLYN, NY 11201-3857.

6  Job Type (required for all applications, choose all that apply):
   - Telecommunications Antennas and/or Equipment
   - Solar Array and/or Equipment
     - Size of Array (No. of Panels):
   - HVAC/MEP Equipment
   - Green Roof/Blue Roof
   - Penthouse/New Floor(s)
   - Number of Floors (if applicable):
   - Occupiable Rooftop
   - Rooftop Deck
   - Rooftop Restaurant/Bar
   - Other (if needed):

7  DOB Filing Status (required for all applications):
   - Filed with DOB?  NO  YES  ▶  Copy of PW-1, Schedule A and Certificate of Occupancy attached?  
     (If yes above): DOB Application No(s):

8  Nature of Modification (required for all applications):
   Compose a narrative description that addresses items 8a and 8b. Append the separate narrative to your submission packet.

8a  Explain, in detail, the specific nature of the modification sought, and describe the difficulty in complying with the requirements of the Fire Code or Fire Department Rule(s).

8b  Explain, in detail, how you propose to mitigate the effect of modifying the code or rule requirement. Include all measures intended to ensure public safety.

8c  Previously filed FDNY Variance Application(s) for the aforementioned property. Indicate either FPIMS No(s) or FPIN(s), and status of filing (granted/objections/denied):

8d  Application submitted in response to an FDNY-issued violation, specifically for Rooftop Access/Obstructions?
   - NO  YES: (if yes, complete below the fields below) ▼
   - NO:  YES:  ▶
   - NO:
   - YES:

   NOV/VO/Summaries  Number  Description  Disposition

9  Building Characteristics and Fire Protection Features (required for all applications):
   - Occupancy Classification:
   - Building Height (ft):
   - Construction Classification:
   - Building Stories (No.):
   - Construction Date:
   - Stairs Leading to Roof (No.):
   - Fire Escape(s) to Roof?
     - YES  NO
   - Interior/Exterior Stair to Roof?
     - YES  NO
   - Standpipe
   - Fire Alarm
   - Fully Sprinklered
   - Partially Sprinklered
   - Non-Sprinklered

10 Applicant Certification (required for all applications):
   Under penalty of perjury, I certify that the information contained in this application is true, to the best of my knowledge.
   Applicant Name (please print):
   Signature ▶  Date:

11 Owner Statement (required for all applications, must be signed by owner):
   I have authorized the applicant to file this modification with respect to the premises.
   Owner Name (please print):
   Signature ▶  Date:
Sample Plan - Flat Roof

Include on plans
- Entire rooftop including setbacks, not only area of work proposed
- Label all existing/proposed building features
- Label all apparatus accessible exposures including parking lots
- Demonstrating compliance, showing required clearances
- State areas of non-compliance
- Proposed mitigation for non-compliance
- MUST have original PE/RA seal and signature
Sample Plan – Pitched Roof
Sample Plan – Pitched Roof
